Rev. M. G. Shabua, Missionary of Queenstown, South Africa. A great gospel preacher, a great thinker and a man of great vision for the future of his race.

Rev. Shabua was educated in America and he has made rapid improvement during his student career in American schools.

In connection with his visit in this section of the country in order that he might fully understand the Social, Political, Industrial, Religious and Economic problems of his race in the Southwest he is spending some time in the city and he is preaching in many of the leading churches in the city and those who have heard his messages have highly been pleased and helped spiritually and he is considered by many of the leading and

educated ministers of the city to be a strong gospel preacher. He is logical, philosophical and a convincing debater.

His objective: he hopes to establish an Institutional Church and an Industrial School in South Africa on his return.

Rev. Shabua has with him a very interesting and fascinating picture gallery illustrating the general native African life, his pictures are choice, illustrating the disadvantages of the oppressed darker races of Africa and shows the supremacy of the dominant white races in Africa. He renders native selections in connection with his pictures.

He will be glad to accept engagements while in the city. Call Haskell 6587.

After having been confined to his room for more than ten days, the friends of Prof. J. P. Starks will be glad to hear that he is up and about. He has made two trips to his office at this writing.
